PROFILE

Hi, I'm Tamil Selvan, highly skilled React Developer with a strong focus on building scalable, efficient, and robust applications. Proficient in Material UI, creating visually appealing and responsive interfaces with ease. Extensive experience in Jest and Enzyme for maintaining high code quality through rigorous unit testing. Skilled in modular component-driven architecture, effective state management, and performance optimization. Familiar with project management using Jira and proficient in collaborative environments.

WORK EXPERIENCE

Frontend Developer

Nurture Infotech , Erode   Jan 2023- Present

- Built scalable and efficient applications using **React**.
- Developed visually appealing and consistent user interfaces using **Material UI.**
- Wrote comprehensive unit tests with **Jest and Enzyme**, ensuring robust code quality.
- Utilized **Tailwind CSS** to write efficient and modular CSS code.
- Delivered high-quality frontend solutions, demonstrating technical growth and expertise.
- Implemented **responsive** and mobile-first design principles to ensure seamless user experiences across a variety of devices and screen sizes.

PROJECTS

PROJECT- 1

Title : E-Commerce

Technologies: React, Redux, Material UI, Tailwind, Git

Description:

- Developed and customized the frontend of an e-commerce platform using React.
- Utilized Redux for effective state management.
- Implemented responsive UI components and ensured a seamless user experience.
- Participated in code reviews, contributing to improving code quality and performance.
- Applied best practices in React development, including component-based architecture and reusable code.
